

V 120 SG - V 160 SG

Instructions for use

Get to know your wine cooler:

Warning

In case this appliance contains hydrocarbon refrigerant please refer to guidelines listed below.

As the appliance contains a flammable refrigerant, it is essential to ensure that the refrigerant pipes are not damaged.

Standard EN378 specifies that the room in which you install your appliance must have a volume of 1m³ per 8 g of hydrocarbon refrigerant used in the appliances. This is to avoid the formation of flammable gas/air mixtures in the room where the appliance is located in the event of a leak in the refrigerant circuit. The quantity of the refrigerant used in your appliance is indicated on the rating plate.

WARNING: Keep ventilation openings in the appliance's cabinet or in the built-in structure clear of obstruction

WARNING: Do not use other **mechanical devices** or other means to accelerate the defrosting process than those recommended by the manufacturer

WARNING: Do not damage the refrigerant system

WARNING: Do not use **electrical appliances** inside the refrigerated storage compartment, unless they are of a type recommended by the manufacturer

WARNING: Do not expose the appliance to rain

WARNING: This appliance is not intended for use by young children or infirm persons unless they have

been adequately supervised by a responsible person to ensure that they can use the appliance safely. Young children should be supervised to ensure that they do not play with the appliance

- Always keep the keys in a separate place and out of reach of children
- Before servicing or cleaning the appliance, unplug the appliance from the mains or disconnect the electrical power supply
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard
- **Relevant for Australia:** Supply cord fitted with a plug complies with AS/NZS 3112.
- Do not store explosives, such as aerosol cans with flammable propellants in the unit.
- Frost formation on the interior evaporator wall and upper parts is a natural phenomenon. Therefore, the appliance should be defrosted during normal cleaning or maintenance
- Directions for replacing the illuminating lamps are to be included in the instruction
- Please note that changes to the appliance construction will cancel all warranty and product liability
- This appliance is intended to be used exclusively for the storage of wine

Maintenance

Only use an unscented detergent when cleaning the cabinet inside.

You may remove the top panel and wash it when cleaning the cabinet inside.

Switch off the appliance and pull out the plug when cleaning the cabinet.

The skirting board can be removed to facilitate a vacuum-cleaning of the floor.

To make the cooling system work at its optimum it is necessary from time to time to clean the wire condensator and the compressor at the back of the cabinet by means of a brush or a vacuum cleaner. Remember to clean the drain.

Before starting the appliance

Check that the cabinet is undamaged. Please report any damage immediately to your dealer.

Wash the cabinet and inner lining with a mild unscented detergent and wipe it dry. Do not use abrasive scouring powder, steel wool or similar.

After installing the appliance, wait at least 1 hour until the appliance starts up. During transportation the oil in the compressor may have flowed into therefrigeration system.

Electrical connection

Wiring and connections in power supply systems must be all applicable (local and national) electrical codes. Consult these codes lengths and sizes prior to cabinet installation.

This device complies with relevant EU directives including Low Voltage Directive 2006/95 EEC. and Electromagnetic Compatibility Directive 2004/108/EC

The socket should be freely accessible.

Connect the appliance only to 220/240V 50Hz alternating current via a correctly installed earthed socket.

The socket must be fused with a 10 A or higher fuse.

If the appliance is to be operated in a non-European country, check on the rating plate whether the indicated voltage and current type correspond to the values of your mains supply.

The power cord may be replaced by a technician only.

Data regarding voltage and absorbed power / current are given on the rating plate.

The rating plate provides various technical information as well as type and serial number.

On some models it the rating plate placed on the back side

Installation

See drawings - page A and B.

Install the cabinet in a dry place and so that it is not exposed to direct sunlight or any other source of heat.

Place the cabinet in a level position. This is easily achieved by adjusting the adjustable feet at the front edge of the base.

The cabinet may not rest against a wall on its hinged side. When placing the cabinet on a carpet or on a wooden floor you should adjust it once more after some time as the cabinet might settle in soft foundations.

If you want to build the appliance into a cupboard you must consider 3 factors:

1. There must be space above the appliance in order to make the cooling system work satisfactorily.
2. When the door is opened the appliance takes up more room in the width and therefore the door must either be placed outside the cupboard or there must be a space of at least 1,5 cm at the hinge side.
3. The distance to the wall at the hinge side must be of a sufficient size.

Furthermore is it possible to build together the appliance and another cabinet.

It is safest to place the earthed wall socket above the appliance and at least 1.7 / 2.0 m above the floor. Any local installation rules for appliances of this kind must be observed.

During a storm the electricity supply might be cut off.

You should be aware of this when installing the appliance in weekend cottages or elsewhere where you would not immediately observe that the power has been cut off.

Control panel

Connect the appliance to the socket outlet. A green light indicates that the appliance has been switched on.

The thermostat knob is adjustable from 0 (stop) to 7 (coldest). Find the position of the thermostat which gives you the desired temperature. Start at position 4.

1. Lock
2. Green light indicating power on
3. Thermometer
4. Thermostat button.
5. Door switch for internal fan
6. Light switch

The switch (6) on the top right of the control panel is for turning the top lighting on and off.

Reversing the door

1. Remove the lock pin using a flat-headed screwdriver.

2. Remove the lock housing.

3. Loosen the top panel. Do not remove the screws, just loosen them.

4. Tilt the top panel forwards to remove it (it is secured in three places)

5. Lay the appliance on its back and remove the upper hinge, using the hex key.

6. Pull the torsion spring out of the door together with the hinge.

7. Remove the bottom hinge using the hex key.

8. Move the door handle to the opposite side.

9. Move the hinge pin to the opposite side of the bottom hinge.

10. Refit the bottom hinge on the opposite side.

11. Move the plastic door guard to the opposite side.

12. Insert the hinge pin and torsion spring into the top of the door on the opposite side.

13. Fit the left-side top hinge (available as extra). Tighten the torsion spring approx. 1/2 turn (anticlockwise on left side, clockwise on right.)

14. Secure the top hinge in position.

15. Raise the appliance into upright position. Click the top panel into place (it is secured in three places.)

16. Retighten the top panel screws using a screwdriver.

17. Refit the lock housing and lock pin.

18. After reversing the door, it is important to check that the sealing strip provides a tight seal all the way round. If it does not, carefully heat the strip all the way round using a hair dryer. Then ease the strip outwards slightly so that it forms a tight seal against the cabinet. Be careful not to heat the strip so much that it melts!

Shelf

Replaceable lamp strip

- Pull the screen to the left.
- Pull down the right side of the screen and take it out.

Remove the strip - possibly with text - by pulling it out of the tracks along the whole length of the profile.

The mounting is performed in reverse order.

Mounting of lock

(Optional extra.)

Has the appliance stopped working?

Before calling a repairman, check that

- The plug is properly plugged into the wall socket.
- The fuse is intact.
- The power has not been cut off.
- All controls are correctly set.
- Switch off the cabinet for 15 minutes (for instance at the thermostat). Switch it on again and after 5 minutes check whether frost has formed on the evaporator.
- Do not open the cabinet when unnecessary.

Warranty, spare parts and service

Warranty disclaimer

Faults and damage caused directly or indirectly by incorrect operation, misuse, insufficient maintenance, incorrect building, installation or mains connection. Fire, accident, lightning, voltage variation or other electrical interference, including defective fuses or faults in mains installations.

Repairs performed by others than approved service centres and any other faults and damage that the manufacturer can substantiate are caused by reasons other than manufacturing or material faults are not covered by the warranty.

Please note that changes to the construction of the appliance or changes to the component equipment of the appliance will invalidate warranty and product liability, and the appliance cannot be used lawfully. The approval stated on rating plate will also be invalidated.

Transport damage discovered by the buyer is primarily a matter to be settled between the buyer and the distributor, i.e. the distributor must ensure that such complaints are resolved to the buyer's satisfaction.

Before calling for technical assistance, please check whether you are able to rectify the fault yourself. If your request for assistance is unwarranted, e.g. if the appliance has failed as a result of a blown fuse or incorrect operation, you will be charged the costs incurred by your call for technical assistance.

Spare parts

When ordering spare parts, please state the type, serial and product numbers of your appliance. This information is given on the rating plate. The rating plate contains various technical information, including type and serial numbers.

Product numbers

Disposal

Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items.

Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union.

If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]

These symbols are only valid in the European Union. If you wish to discard this product, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):

This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

FOR SALES IN AUSTRALIA AND NEW ZEALAND
APPLIANCE: ALL VINTEC/TRANSTHERM

This document sets out the terms and conditions of the product warranties for Vintec/Transtherm Appliances. It is an important document. Please keep it with your proof of purchase documents in a safe place for future reference should there be a manufacturing defect in your Appliance. This warranty is in addition to other rights you may have under the Australian Consumer Law.

1. In this warranty:

- (a) 'ACL' or 'Australian Consumer Law' means Schedule 2 to the Competition and Consumer Act 2010;
- (b) 'Appliance' means any Electrolux product purchased by you and accompanied by this document;
- (c) 'ASC' means Electrolux's authorised serviced centres;
- (d) 'Vintec/Transtherm' is the brand controlled by Electrolux Home Products Pty Ltd of 163 O'Riordan Street, Mascot NSW 2020, ABN 51 004 762 341 in respect of Appliances purchased in Australia and Electrolux (NZ) Limited (collectively "Electrolux") of 3-5 Niall Burgess Road, Mount Wellington, in respect of Appliances purchased in New Zealand;
- (e) 'Warranty Period' means the period specified in clause 3 of this warranty;
- (f) 'you' means the purchaser of the Appliance not having purchased the Appliance for re-sale, and 'your' has a corresponding meaning.

2. Application: This warranty only applies to new Appliances, purchased and used in Australia or New Zealand and is in addition to (and does not exclude, restrict, or modify in any way) other rights and remedies under a law to which the Appliances or services relate, including any non-excludable statutory guarantees in Australia and New Zealand.

3. Warranty Period: Subject to these terms and conditions, this warranty continues for in Australia for a period of 24 months and in New Zealand for a period of 24 months, following the date of original purchase of the Appliance.

4. Repair or replace warranty: During the Warranty Period, Electrolux or its ASC will, at no extra charge if your Appliance is readily accessible for service, without special equipment and subject to these terms and conditions, repair or replace any parts which it considers to be defective. Electrolux may, in its absolute discretion, choose whether the remedy offered for a valid warranty claim is repair or replacement. Electrolux or its ASC may use refurbished parts to repair your Appliance. You agree that any replaced Appliances or parts become the property of Electrolux.

5. Travel and transportation costs: Subject to clause 7, Electrolux will bear the reasonable cost of transportation, travel and delivery of the Appliance to and from Electrolux or its ASC. Travel and transportation will be arranged by Electrolux as part of any valid warranty claim.

6. Proof of purchase is required before you can make a claim under this warranty.

7. Exclusions: You may not make a claim under this warranty unless the defect claimed is due to faulty or defective parts or workmanship. This warranty does not cover:

- (a) light globes, batteries, filters or similar perishable parts;
- (b) parts and Appliances not supplied by Electrolux;

- (c) cosmetic damage which does not affect the operation of the Appliance;
- (d) damage to the Appliance caused by:
 - (i) negligence or accident;
 - (ii) misuse or abuse, including failure to properly maintain or service;
 - (iii) improper, negligent or faulty servicing or repair works done by anyone other than an Electrolux authorised repairer or ASC;
 - (iv) normal wear and tear;
 - (v) power surges, electrical storm damage or incorrect power supply;
 - (vi) incomplete or improper installation;
 - (vii) incorrect, improper or inappropriate operation;
 - (viii) insect or vermin infestation;
 - (ix) failure to comply with any additional instructions supplied with the Appliance;

In addition, Electrolux is not liable under this warranty if:

- (a) the Appliance has been, or Electrolux reasonably believes that the Appliance has been, used for purposes other than those for which the Appliance was intended, including where the Appliance has been used for any non-domestic purpose;
- (b) the Appliance is modified without authority from Electrolux in writing;
- (c) the Appliance's serial number or warranty seal has been removed or defaced.

8. How to claim under this warranty: To enquire about claiming under this warranty, please follow these steps:

- (a) carefully check the operating instructions, user manual and the terms of this warranty;
- (b) have the model and serial number of the Appliance available;
- (c) have the proof of purchase (e.g. an invoice) available;
- (d) telephone the numbers shown below.

9. Australia: For Appliances and services provided by Electrolux in Australia: Electrolux goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the Appliance repaired or replaced if the Appliance fails to be of acceptable quality and the failure does not amount to a major failure. 'Acceptable quality' and 'major failure' have the same meaning as referred to in the ACL.

10. New Zealand: For Appliances and services provided by Electrolux in New Zealand, the Appliances come with a guarantee by Electrolux pursuant to the provisions of the Consumer Guarantees Act, the Sale of Goods Act and the Fair Trading Act. Where the Appliance was purchased in New Zealand for commercial purposes the Consumer Guarantee Act does not apply.

11. Confidentiality: You accept that if you make a warranty claim, Electrolux and its agents including ASC may exchange information in relation to you to enable Electrolux to meet its obligations under this warranty.
