Designed for wine  
lovers, by wine lovers

THE COLLECTION

# Designed for wine lovers, by wine lovers.

Great wines are crafted with an obsession for quality at each step of the production process. Serious collectors, sommeliers and merchants know how important it is to preserve that quality during long-term cellaring.

They also know that Vintec climate-controlled cellars are the most reliable tools for ensuring their collections are protected.

Created to meet standards of excellence born from a love of wine, they recreate the ideal storage conditions found only in the best natural underground cellars.

Whether you have dusty cases under your stairs or an investment-grade collection, Vintec has the range of capacities and styles to ensure your wine can be enjoyed at its best for many years to come.

Vintec offers a holistic experience for wine lovers: specialized products that provide the perfect cellaring and serving conditions for your wine as well as educational and experiential benefits to enrich your wine journey.

Our private club for owners of Vintec cellars - the Vintec Club - offers unique, exclusive dinners and tastings featuring renown winemakers and rare wines while our proprietary 'OENO' virtual cellar management app helps you manage your collection.

# Why choose Vintec?

## Wine cellars are our specialty

In fact, that is all we do. Being intimately connected to the wine industry and focussed solely on wine cabinets for over two decades, we have developed the largest and most advanced range to suit all wine storage requirements.

## We care about your collection

Our highest priority is to offer the best and safest storage solution for your wine. For instance, all our cellars have dark interiors and dim UV-free lighting, instead of white interiors and bright lights. Why? Because it's important to keep your wine in a dark storage area.

## The Vintec guarantee

All Vintec wine cellars have been tested to ensure they function in Australian and New Zealand climates. Covered by a two year warranty, our cellars bear unique identification numbers that allow their origin and authenticity to be traced. They are also backed by dedicated phone support teams in Sydney and Auckland, as well as a national network of service specialists.

## Become a member of the Vintec Club

The Vintec Club is a private club for owners of Vintec wine cellars, offering exclusive benefits around wine. It's also a broader community for all wine lovers who enjoy learning and connecting with other like-minded wine lovers. Joining the club as a 'Guest' is free. To become a 'Member', you need to own and register a Vintec wine cellar.

Find out more on page 40.

# The Vintec story

Vintec is a leading specialist brand in climate-controlled wine storage solutions, having gained the trust of professionals, the wine industry and consumers, to become the benchmark in Australia and Asia-Pacific.

Wine is at the heart of everything we do, it's a passion shared with all wine lovers. We know how important a wine collection is; how confusing storing and serving wines can get; and how intimidating learning about wine can be. By providing tools, content and a community, we help guiding wine lovers to continuously rediscover wine.

## Heritage

Vintec was born in 2000 from the initiative of two Frenchman who shared a common love for wine and saw climate-controlled wine cabinets as the wine storage solution of the future. The entrepreneurs leveraged their previous experience in the wine industry to collaborate with Danish designers and manufacturers to introduce a range of stylish and functional wine preservation systems.

## Products

With a modern Scandinavian-inspired design, Vintec Climate-Controlled Wine Cabinets are engineered to protect wines for the short or long term, optimizing storage space and accessibility while maximizing capacity and providing stunning solutions to showcase a wine collection.

## Knowledge

Wine is a complex and ever-evolving beverage that needs the right conditions to develop and be enjoyed at its best - as intended by the winemaker. That's why Vintec Climate-Controlled Wine Cabinets strictly follow the 5 Pillars of Wine Storage.

**Vintec. Designed for Wine Lovers, by Wine Lovers.**

# The Vintec 5 Pillars of Wine Storage

As wine lovers, we know first-hand how important your wine collection is to you. This is why we have spent over 20 years building our range on five core pillars of preservation.

## Pillar 1:

### Stable temperature

Vintec wine cabinets are specially designed to maintain a constant temperature to preserve your wines, keeping them at their best and allowing them to mature steadily.

- Insulated side panels
- Double / triple-glazed doors

## Pillar 2:

### Humidity

Vintec wine cabinets are specially designed to maintain a higher humidity than a standard refrigerator to preserve corks and prevent your wine from oxidising while cellaring.

## Pillar 3:

### UV-proof dark storage area

Vintec wine cabinets are specially designed to prevent UV light from affecting your wine.

- UV-resistant tinted and insulated glass doors
- Dark interiors
- Double / triple-glazed doors
- UV-free LED lighting

## Pillar 4:

### Vibration-proof environment

Vintec wine cabinets are specially designed to keep all moving parts in suspension, absorbing and reducing to a minimum any vibrations, so that your wines are stored in a protected environment where they can mature steadily.

- Vibration-absorbing
- Sliding shelf rails
- Vibration-absorbing
- Oak and beech wooden shelves

## Pillar 5:

### Quality airflow

Vintec wine cabinets are equipped with an efficient air circulation system and selected models include an air filter to ensure a constant, slow flow of filtered air throughout the cabinet. This limits odours that can penetrate your wine and prevents mould from growing and damaging labels and corks.

# Features

## Why a wine cabinet instead of a fridge?

Traditional refrigerators generate intense cold and remove ambient humidity. They denature your wines and dry out corks.

Vintec wine cabinets are designed specifically for the preservation and maturation of your wines.

Our wine cabinets maintain a stable temperature to keep your wine in perfect cellaring conditions. This is thanks to triple glazed

glass, fully insulated cabinet panels and interactions between a compressor and thermostat. (Features may vary by model).

Selected models incorporate a winter heating function. In low ambient temperatures it gently warms the cabinet to ensure a constant year-round temperature is maintained.

Integrated locks

Adjustable sliding timber anti-vibration shelves

Carbon filters

## Caring for the environment as well as your wine

Vintec climate-controlled wine cabinets are equipped with energy-efficient R600a refrigerant gas, which has zero ozone-depleting properties.

The switch to R600a is part of a series of initiatives that Vintec has undertaken in order to limit our carbon footprint and to preserve the environment.

LED lighting, temperature display and control panels

Audio and visual alarms

Dual-cycle cooling and heating for constant temperature

Anti-UV tinted glass doors

\*Features/images vary by model.

# Selecting your wine cellar

## Capacity

**Underbench Wine Cellars**  
20 – 50 bottles

**Tall Wine Cellars**  
100 - 300 bottles

**Beverage Centres**  
40 - 250 beer bottles

**Walk-in Cellars**  
600 – 4000 bottles

Capacities expressed are based on that achieved in our testing using standard 750ml Bordeaux style wine bottles (see page 54 for dimensions) or 330ml beer bottles. Our cellars can accommodate other shapes and sizes of bottles, however their inclusion will affect overall maximum capacity.

**Easy:**  
Capacity that can be reached with all supplied shelves installed and with a maximum of 4 - 5 levels of stacking per shelf.

**Max:**  
Maximum capacity that can be reached. For some models, reaching this capacity requires using less shelves than supplied.

## Design

Vintec wine cellars are available in 3 stylish finishes to suit your décor

Borderless Black Glass

Stainless Steel

Matte Black

## Function

### Single Zone

Since all wines – reds, whites and Champagne – cellar at the same temperature (12° - 14°C), a Single Zone cellar is ideal for conveniently storing and cellaring all your wines. Alternatively, a Single Zone cellar can be used to serve wines at optimal drinking temperatures: either 6° - 8° for white, or 16° - 18° for red.

### Dual Zone

A Dual Zone cellar is ideal for keeping both reds and whites at optimal respective drinking temperatures. Set one compartment at 6° - 8°C for whites and Champagne, and the other at 16° - 18° for reds. Alternatively, one compartment can be set at a serving temperature and the other at 12° - 14° for cellaring.

### Multi Temp

Vintec's versatile Multi Temp technology is designed for serving different styles or varieties at their optimal individual drinking temperatures. For instance, setting the bottom at 6°C and the top at 18° generates a temperature gradient throughout the cellar allowing you to keep several different varieties all stored at their optimal drinking temperatures.

20 - 50

You love to entertain at home and it's important that your guests are well received. Vintec underbench wine cellars balance convenience with style, providing the same technical precision of their larger cousins in a more compact size. Have your best wines on hand at perfect serving temperatures ready to be enjoyed, or cellar a small collection with confidence.

# Underbench Wine Cellars

# Single Zone Wine Cellars

Since all wines – red, white and sparkling – cellar at the same temperature (12°), the Single-Zone wine cabinets are ideal for storing and cellaring for short or long-term. The Single-Zone can also be used for storing wines at drinking temperatures: 6-8° for sparkling, 8-13° for whites, 15-18° for reds.

You collect and consume the finest wines; therefore you should have the best storage and serving solution available. From ageing to serving, a tall Vintec wine cellar is the answer to every wine connoisseur's dream.

## Tall Wine Cellars

The most recent addition to our range is Vintec Premium Wine Cabinets, so that wine lovers can store their entire wine collections and accommodate all main bottle shapes – even Champagne.

# Tall Wine Cellars

## Unique Premium Range Features

Featuring the proprietary **Perfect Cradle™ Shelving**, which is a new shelving system designed to fit comfortably all bottles of your diverse collection, including your favorite Champagne and even standard Magnums, without scratching labels. The carefully optimised storage space provides easy access and visibility to all bottles, as well as stunning ways to showcase a collection

**Wide-Slat, Fully-Extendable Telescopic Shelves** provide visibility and easy access to bottles, Reversible Shelves accommodate bottles on upright position with a Top Display Shelf to elegantly showcase your collection.

**Made in Europe**, with a modern Scandinavian-inspired design, this Vintec range of climate-controlled wine cellars is the perfect solution for all wine lovers and collectors to protect and store their treasured collections.

# Premium Multi-Temp Wine Cellars

The Multi-Temperature setup feature allows you to store all your different wine varietals at their perfect drinking temperatures - ready to be served at any time. For cellaring, the range is equipped with a unique Cellaring Mode which sets the temperature of the entire wine cellar at 12 degrees Celsius - the ideal temperature to cellar all wine varietals and styles

Premium models feature stylish matte glass finish, inverter compressor, touch controls and oak shelves with anodised metal trim to securely cradle your precious wine. Available in 2 sizes with configurations for maximum capacity and easy access to suit your individual needs.

## FEATURED BRANDS:

Professor Claus J. Riedel was the first to recognise that the bouquet and balance of wines are affected by the shape of the glass. Riedel is now recognised worldwide for designing and producing the highest quality glassware for the enjoyment of wine.

Legnoart was born out of love and passion for wood and beauty. After almost seventy years, Legnoart is among the major Italian companies in the household, kitchen and cellar furniture design business, and is distributed in over 52 countries.

# Üllo

Üllo is a revolutionary wine purifier that restores the natural taste of wine with Selective Sulfite Capture™ filter technology. Breathe life into reds, or maintain the balance of whites. Twist the aerator on or off to suit your preference.

# winesave®

For over a decade, Winesave has helped preserve millions of bottles of wine all around the world. Winesave PRO is made with 100% all-natural, high-quality, food-grade argon gas and is guaranteed to allow you to savour your opened bottles of wine for longer, with just a one second application.

# Arvid Rosengren

## Global Brand Ambassador

Meet Vintec's global brand ambassador, **Arvid Rosengren**, ASI (International Sommelier Association) World's Best Sommelier 2016. Arvid brings a new level of wine expertise and professional authority to the Vintec brand and will offer Vintec customers exclusive advice on great wines to collect and how to enjoy them at their best. Arvid has been the Global Ambassador for Vintec since 2020.

Born and raised in the south of Sweden, Arvid Rosengren is one of the most merited Sommeliers in the world having accumulated a series of titles over the years, including the latest and most renowned one, Best Sommelier in The World.

After studying at Grythyttan School of Hospitality & Culinary Arts, and working at various places in Scandinavia, Arvid settled in Copenhagen, Denmark where he spent six years, growing from a floor Sommelier of a busy restaurant to Wine Director for an ambitious group of almost a dozen establishments.

It was during this same period that Arvid started his career in competing. After enrolling to his first ever contest, the Best Sommelier in Sweden, in 2009 and getting 2nd place, he was immediately hooked. He went off to claim in the same year the title of Best Sommelier in the Nordics and came back to take the Swedish title in the next year. After three years of intense studying he conquered highly competitive title of Best Sommelier in Europe, 2013.

Nearing thirty, Arvid had become a bit restless and needed to get away from spreadsheets and negotiations and back on the floor, with the guests and the bottles. After meeting a group of winemakers on a gastronomical trip of Scandinavia, he moved to New York, where he worked in SoHo for a couple of years, spending most nights hustling bottles at Charlie Bird, and later co-founded the acclaimed restaurant Legacy Records.

In 2016 he went to Argentina to compete with other 60 top sommeliers from around the world for the title of World's Best Sommelier. The competition is only held every three years and since its inception in 1969 there had only been 14 who have claimed the title. After four days of grueling tests of knowledge, service and blind tasting skills, ending with a final in front of a live audience and live streamed to the world, Arvid Rosengren became the 15th ever to earn the title of Best Sommelier of the World.

Since 2015, Arvid runs King Street Sommeliers, a consulting company focused on cellar management and wine experiences for private collectors and hospitality clients.

*“Vintec wine cabinets are engineered to keep wines safe and maturing at a gentle pace, recreating the ideal conditions for long- and short-term storage. The OENO app allows any wine lover to understand and track their collection, and enjoy their wines at their best.”*

**Arvid Rosengren**  
Global Brand Ambassador

**OENO**  
BY VINTEC

**Your Virtual Wine  
Cellar Manager and  
Personal Sommelier**

**OENO By Vintec is your virtual cellar management app and personal sommelier, powered by Vivino.**

With OENO, you can effortlessly keep track of which wines you have, where they are located in your Vintec cellar(s) and learn how to enjoy them at their best with expert recommendations.

### ABOUT 'OENO':

The app is named OENO ('eno') after the Goddess of Wine. According to Greek mythology, Oeno was the greatgranddaughter of Dionysus, God of the Grape Harvest and Winemaking, who gave her the power to transform water into wine.

Nowadays, 'Oeno' (UK) is commonly used as a prefix for words semantically connected to wine such as in oenology (the study of wine) or oenophile (a wine lover).

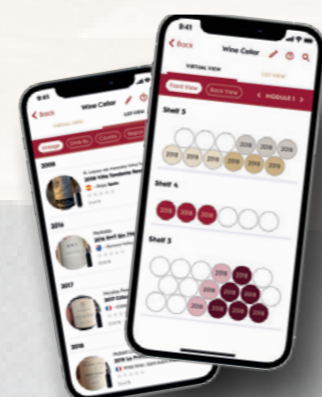

### HOW IT WORKS:

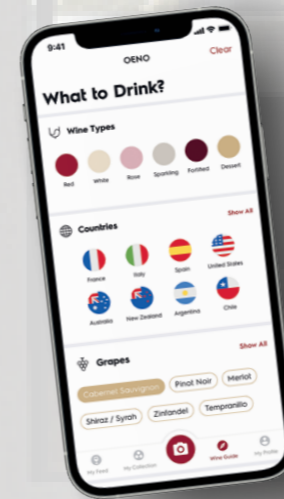

- 1 CREATE** a virtual replica of your wine cellar(s):

- 2 SCAN** labels and see detailed information about wines

- 3 MANAGE** you collection and keep track of your bottles

- 4 PAIR** wine and food. Get recommendations of wines from your cellar to match your meals

- 5 BUY** wines and restock your collection directly from the OENO app  
(Powered by the Vivino Market)

### HOW TO ACCESS OENO:

- 1 DOWNLOAD** 'OENO by Vintec' from the App Store or Google Play:

- 3 'MY COLLECTION'** will display your registered cellar(s)

- ✓ VOILÀ!** You're ready to start!

### TIP:

Use the multi-scan tool to quickly scan and place a large number of bottles on your cellar

# Technical Guidelines

# Ventilation

All Vintec cellars are equipped with compressors that generate heat and therefore require a minimum ventilation gap when building them into cabinetry, or positioning them under benches or adjacent to other appliances. The diagrams on these pages are a guide to assist purchasing selection, but detailed, model-specific ventilation requirements

should be obtained from our website at [vintec.com](http://vintec.com) prior to installation. A ventilation grill must be installed for any cabinet built under bench or into cabinetry.

### Outdoor/alfresco use

Units being installed in outdoor/alfresco areas must be kept out of direct sunlight and away from rain.

Illustrations not to scale.  
All dimensions in millimetres.

### VWM148/198/306 models

### V190 models

### VWS130/170 models

### VBS/VWSO20 models

### VWSO35 models

### VBS/VWD/VWSO50 models

Note: If a vertical vent space (Vx) of 100mm is provided, then a minimum top ventilation gap (Tx) of 50mm is sufficient, but otherwise minimum Tx of 100mm is required.

\* Extra space is recommended on the opening edge/top for easy finger grip access, as well as on the hinge side to allow doors to open wide enough for shelves to slide out.

\* Extra space is recommended on the opening edge/top for easy finger grip access, as well as on the hinge side to allow doors to open wide enough for shelves to slide out.

### Underbench installation

### Walk-in Cellar models

# Capacity and shelf stacking

## Different shapes and sizes

This brochure makes reference to the 'standard Bordeaux style bottle' when specifying capacity. The dimensions and proportions of this bottle shape are shown at 1. However, wine producers use a huge range of different bottle shapes and sizes, some of which are shown at 2.

Bottle shape variety should be considered when selecting the appropriate Vintec cabinet in which to house your precious collection, since shelf height and adjustability varies across the product range.

The Vintec Premium cabinets offer the Proprietary Perfect Cradle Shelving System, which fits ALL bottle types without scratching labels.

Please also be aware that some bottles will not fit opposite each other on the same shelf and this may affect capacity. You may need to lay the bottles opposite more suitably shaped bottles.

Maximum capacity is based on our testing using standard 750ml Bordeaux style wine bottles. Our cellars can accommodate other shapes and sizes of bottles however this will result in a reduction in maximum capacity.

Standard Bordeaux style bottle dimensions

Standard Bordeaux style

**NOTE: Illustrations not to scale.**  
All dimensions in millimetres.

## Stacking for ageing

When filling your cabinet, we suggest stacking the bottles you wish to cellar and mature at the back of the shelves, and the wines you wish to consume in the short-term at the front (see below).

Shelf top view

Shelf front view

**NOTE: Images are illustrative only and will vary with bottle style and model.**

## Stacking for accessibility

When stacking bottles, it is practical to keep bottles from the same case together. See diagrams below, in which bottles from the same case are represented by the same colours.

Vertically stacking same-case bottles enables safe and easy access to all your different wines.

Shelf front view

# Cellaring and serving temperatures

Although all wines – reds, whites and Champagnes – should be cellared at the same temperature, different wines have different ideal serving temperatures. Cellar and serve your wines according to the chart below in order to always enjoy your wines at their best.

#### Warranty

Electrolux Home Products Pty Ltd and Electrolux (NZ) Limited (collectively Electrolux) warrants that for domestic applications the appliances featured in this brochure are free from defects in materials and workmanship for 2 years and warrants that for featured accessories a period of 12 months, following the date of original purchase and subject to the conditions set out in the warranty card accompanying the product when purchased. This warranty is in addition to the other rights and warranties you may have under the Australian Consumer Law (ACL) and Electrolux will at all times comply with its obligations at law including the ACL. For New Zealand customers Electrolux will at all times comply with its obligations pursuant to law including the Consumer Guarantees Act, the Sale of Goods Act and the Fair Trading Act. Where appliances are purchased in NZ for commercial purposes the Consumer Guarantees Act does not apply.

#### Product information

The descriptors and illustrations in this publication apply to the specific products and models described as at the date of issue. Under our policy of continuous product development, product specifications may change without notice. Prospective purchasers should therefore check with their retailer to ensure this publication correctly describes the products that are being offered for sale.

All information supplied is to be used for general reference purposes only and is on the understanding that Electrolux will not be liable for any loss, liability or damage of whatever kind arising as a result of reliance on such information. Electrolux will at all times comply with its obligations pursuant to law. Colours of products illustrated are as close as printing limitations allow.
